

Our care & facts about patient

Our Hospital is renowned for its patient care. The sickest, most seriously injured children are treated here.

We treat more than 3,600 Pediatric patients in a year in our Emergency department, alone.

We admit more than 2000 Paediatric patients in a year to the hospital, with almost 50 percent of those admissions are under five of age.

We have ventilated more than 300 Critical New Born babies in NICU and 200 Critical children in P.I.C.U in our Hospital at high success rate.
